SOLUTIONS ARCHITECT - ASSOCIATE

Experienced **AWS Solutions architect** with **1.5 years** of hands-on experience in designing, deploying, and managing cloud-based solutions on Amazon Web Services. Proficient in AWS services including EC2, S3, RDS, Lambda, and CloudFormation. Holds **AWS Certified Cloud Practitioner Certificate** and **AWS Certified Solutions Architect Associate credential**.

TECHNICAL SKILLS

Languages	:	C, C++, Python, HTML, CSS, SQL
Databases	:	RDS, DynamoDB, AWS Aurora
Tools	:	AutoCAD, Kafka, SageMaker

EXPERIENCE

President/Founder
CloudNova - SRM

March 2023
SRMIST – Chennai, Tamil Nadu, India

- Responsible for founding the AWS-based cloud club **CloudNova - SRM** where students can learn about Cloud Architecture.
- Collaborate and coordinate with multiple clubs and organize AWS events and Hackathon.

Associate
NTL - SRM

March 2023
SRMIST – Chennai, Tamil Nadu, India

- Associate at NextTech lab, responsible for implementing Cloud Solutions.

Cloud & IoT Intern
Petrus Technologies

June 2023 – July 2023
Coimbatore, Tamil Nadu, India

- Took ownership of budgeting and presented effective solutions for a significant portion of an IoT project utilizing AWS services.
- Played a pivotal role in designing organizations for an IoT project, showcasing expertise in implementing SCP (Service Control Policies) and deploying effective lifecycle management strategies with great success.
- Confidently deployed basic IaC (Infrastructure as Code) CloudFormation templates, facilitating the deployment of multiple EC2 instances for development purposes.

EDUCATION

SRM Institute of Science and Technology (4th semester)
Bachelor of Technology in CSE Cloud Computing (Sept 2021 – June 2025)

Chennai, Tamil Nadu, India
CGPA: 9.2

BASE PU College
State Board (June 2019 – July 2021)

Bangalore, Karnataka, India
Percentage: 89%

PROJECTS

Microarchitecture — *Amazon API Gateway, AWS Lambda, Amazon DynamoDB* — Project 1

- Designed and developed microarchitecture using **Lambda, DynamoDB, and API Gateway**.
- Exposed microarchitecture using **RESTful API** on **Postman**.
- Successfully created a serverless API using **AWS services**.

CERTIFICATIONS

- AWS certified: **Solutions Architect - Associate**
- AWS certified: **Cloud Practitioner**
- AWS Academy graduate: **Cloud Foundations**
- Udemy: **C Programming**
